

SuDS Scientific Investigation

1: Question Which materials will absorb more water...

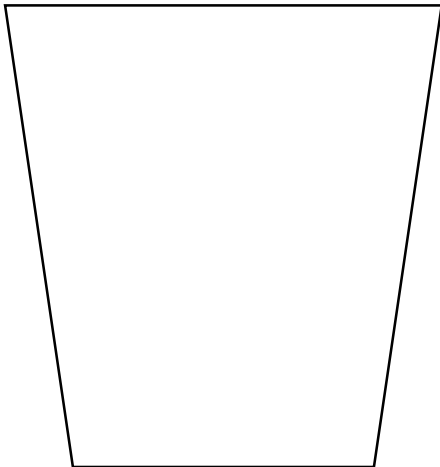

_____ or _____?

What do you think will happen?

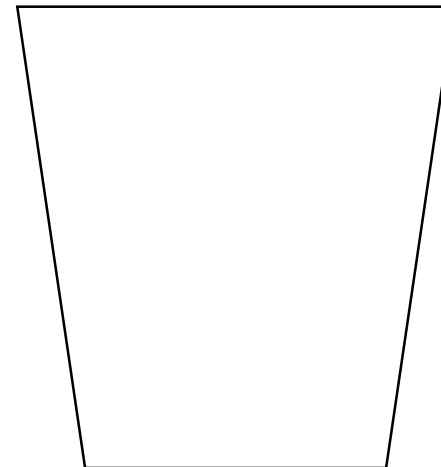

_____ will absorb more water than _____.

2: Plan Draw and label what you put in each pot:

Pot 1:

Pot 2:

SuDS Scientific Investigation

3: Test

Measure 100ml in the jug. Put POT 1 in a tray. Pour the water **slowly** into the pot. Leave for 1 minute. Pour the water that flowed into the tray, back into the measuring jug. Record how much water came out.

What happened?

POT 1 _____ml of water poured out.

POT 2 _____ml of water poured out.

4: Conclusion

_____ absorbed more water than _____.

What does this tell us about what could be done to make your playground more

RAINWATER FRIENDLY?
