Rainbow Walk
Junior River Ranger Activity

Can you make a rainbow out of things found at the river?

What you will need

• A bag, box or basket to collect all the objects you find
• A spectrum of colours (like the one below)

Can you make a rainbow out of things found at the river?

Once you have found a good range of objects to represent the rainbow, find a good platform or space to display them.

Arrange your finds in a rainbow shape and take a photo to share.

Note: If you are having difficulty finding lots of different colours, you could try collecting as many shades of green instead!
